COMTRAWINGFIVE NOTICE 1500

From: Commander, Training Air Wing FIVE

Subj: SCHEDULING GUIDANCE FOR IN1105 COMPUTER ASSISTED INSTRUCTION  
AND IN1106 MEDIATED INTERACTIVE LECTURE

Ref: (a) CNATRAINST 1542.166A W/CH-1

Encl: (1) T-6B JPPT COMPLETE COURSE FLOW

1. References (a) provides direction for scheduling of Student Naval Aviators (SNA).

2. IN1105 and IN1106 introduce fundamental radio instrument concepts such as tracking, intercepts, arcing, and point-to-point navigation. Simulator events I2201-I2203 are designed to reinforce these key principles prior to moving on to more advanced procedures such as holding and instrument approaches.

3. Reference (a) allows the SNA to be scheduled for these fundamental events as early as before the SNA's first flight in the aircraft, C4101. This is before they have any exposure to the aircraft and can be several weeks prior to the simulator events utilizing the skills taught. They can also be scheduled as late as after their final instrument test, IN1390, which test them on concepts covered. While this provides scheduling flexibility it violates the concepts of timely and efficient training.

4. This Notice directs Training Air Wing FIVE SNA be scheduled for the IN1105 and IN1106 after C4501. Additionally, the I2201 shall be completed after IN1106. Prior to the IN1201, the I2203 shall be completed. Enclosure (1) illustrates this change.

  
J. J. FISHER
